English – Upper-Intermediate

Hobbies

-Website Design
-Model making
-Programming
-Chess

Summary

After I finished my economics education in 100% English in 2022, I had the opportunity to work in a good company related to my field, but I soon decided that this was not my dream job. With a passion for production and development, I decided to devote **full time to my dream job, software engineering**. During the pandemic, I gained experience in website development and SEO as a freelance. I am currently **learning HTML, CSS and JavaScript full time**. I am about 3 months into my studies and **i am able to write visually strong websites** using HTML and CSS and **small applications using JavaScript**. I **dedicate myself full time every day to learning** about this and the amazing technologies that follow. I look forward to gaining a place in working life, which will teach me a lot on this journey, and I look forward to doing my best.

Skill Highlights

- HTML
- CSS
- JavaScript
- Practical Thinking
- Communication
- Excel
